

Course Section Change Policy

1. Students may not change any section of a course (i.e. same level class) for any reason other than safety and/or security.
2. Students who failed a course under a specific staff member may request a course section change.
3. All staff must educate the students who are assigned to their classes. A teacher does not have the right to request a student leave his/her class, except for issues of safety/security or unless there is a need to modify a student's appropriate course placement.
